Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

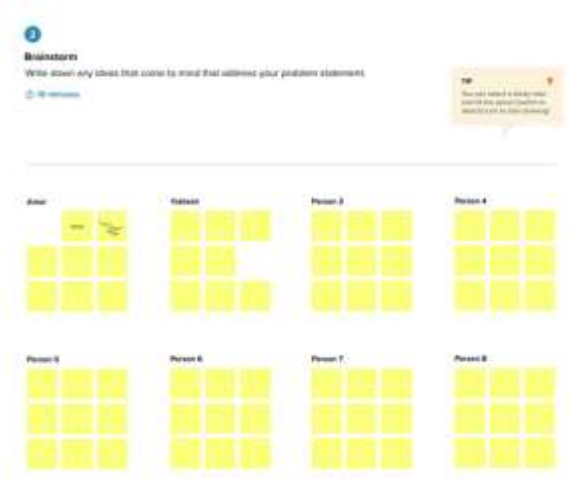

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Customer Problem Statement Template:

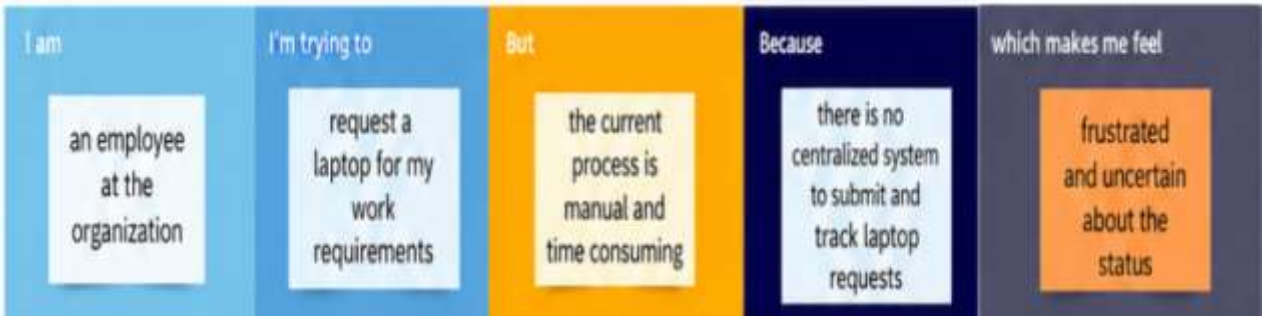

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	*Describe customer with 3-4 key characteristics - who are they?*	an employee at the organization who requires a laptop for work
I'm trying to	*List their outcome or "job" the core about - what are they trying to achieve?*	request a laptop through a simple and standardized process in ServiceNow and get it approved on time
but	*Describe what problems or barriers stand in the way – what bothers them most?*	the current process is manual, involves multiple follow-ups, and lacks transparency on request status
because	*Enter the "root cause" of why the problem or barrier exists – what needs to be solved?*	there is no centralized system to submit, track, and manage laptop requests, and approvals are handled offline (emails/chats)
which makes me feel	*Describe the emotions from the customer's point of view – how does it impact them emotionally?*	frustrated and uncertain about the status of my request, leading to delays in getting the required laptop

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Employee	submit a laptop request through a centralized system	the manual process can involve email or verbal requests and is difficult to track	there is no single automated request and approval process	frustrated and uncertain about the request status
PS-2	IT Manager	review and approve employee laptop requests efficiently	requests may be difficult to track and duplicate requests can occur	there is no centralized automated approval and duplicate-prevention process	concerned about delays, duplicate requests, and accountability

Empathy Map Canvas:

An empathy map is a simple, easy-to-digest visual that captures knowledge about a user's behaviours and attitudes.

It is a useful tool to helps teams better understand their users.
Creating an effective solution requires understanding the true problem and the person who is experiencing it. The exercise of creating the map helps participants consider things from the user's perspective along with his or her goals and challenges.
