Project Development Phase

Model Performance Test

Date	8 September 2026
Team ID	SWUID2026190365
Project Name	ServiceNow-Based Employee Laptop Request Application
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
1.	ServiceNow Application Summary	Centralized employee laptop request application using Employee Center, Record Producer, Flow Designer, Business Rule, ACLs and email notifications.	
2..	Workflow Accuracy	Approval outcome correctly updates request status to Approved or Rejected.	
3.	Fine Tunning Result(if Done)	Not Applicable – this is a ServiceNow workflow application, not an AI/ML model.	N/A

Functional & Performance Testing Template

Model Performance Test

Date	8 September 2026
Team ID	SWUID2026190365
Project Name	ServiceNow-Based Employee Laptop Request Application
Maximum Marks	

Test Scenarios & Results

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
FT-01	Laptop request form validation	Enter valid requester, email, date, manager, type and reason.	Valid request data is accepted.	Valid laptop request was submitted successfully and the request record was created.	Pass
FT-02	Required field validation	Leave required fields blank and submit.	Submission is prevented and validation is shown.	Submission was prevented when required information was missing.	Pass
FT-03	Manager approval workflow	Submit a valid laptop request and check approval.	Manager approval record is created.	Manager approval record was created successfully for the submitted request.	Pass
FT-04	Approval decision handling	Approve and reject requests in separate tests.	Status becomes Approved or Rejected accordingly.	Request status changed to **Approved** when approved and **Rejected** when rejected.	Pass
FT-05	Duplicate request prevention	Submit another request for the same employee in the same year.	Duplicate request is blocked.	Duplicate request was blocked with the duplicate-request validation message.	Pass

PT-01	Flow execution performance	Measure the request-to-approval workflow execution.	Workflow completes successfully without unnecessary delay.	Flow executed successfully from request creation through manager approval and status update.	Pass
PT-02	Notification performance	Trigger approval and rejection outcomes.	Requester notification is generated successfully.	Email notification was generated successfully after the approval/rejection outcome.	Pass

Project Development Phase

Model Performance Test

Date	8 September 2026
Team ID	SWUID2026190365
Project Name	ServiceNow-Based Employee Laptop Request Application
Maximum Marks	10 Marks

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
•	Metrics	Not Applicable – ServiceNow workflow application; no regression/classification ML model is used.	N/A
•	Tune the Model	Not Applicable – no ML model or hyper parameter tuning is used.	N/A

Project Development Phase

Model Performance Test

Date	8 September 2026
Team ID	SWUID2026190365
Project Name	ServiceNow-Based Employee Laptop Request Application
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Data Rendered	ServiceNow laptop request records are rendered in list and form views.
2.	Data Preprocessing	Not applicable – ServiceNow manages request records directly.
3.	Utilization of Data Filters	Status, requester, laptop type and request date can be filtered.
4.	DAX Queries Used	Not Applicable – Power BI is not used in this project.
5.	Dashboard design	Not Applicable – ServiceNow application views are used.
6	Report Design	Not Applicable – no Power BI report is used.

Model Performance Test

Date	8 September 2026
Team ID	SWUID2026190365
Project Name	ServiceNow-Based Employee Laptop Request Application
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Values	Screenshot
•	Application Summary	ServiceNow automation setup for centralized employee laptop requests using Record Producer, Flow Designer, Business Rule, ACLs and notifications.	
•	Workflow Result	Approved requests become Approved; rejected requests become Rejected; duplicate requests are blocked.	
3.	Confidence Score (Only Yolo Projects)	Not Applicable – this is not a YOLO/object-detection project.	N/A

Performance Test

Date	8 September 2026
Team ID	SWUID2026190365
Project Name	ServiceNow-Based Employee Laptop Request Application
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Screenshot / Values
•	Data Rendered	ServiceNow laptop request records are rendered in list and form views.
•	Data Preprocessing	Not applicable – ServiceNow handles the request data directly.
3.	Utilization of Filters	Filters can be applied using requester, status, laptop type and request date.
4.	Calculation fields Used	Not Applicable – Tableau is not used in this project.
5.	Dashboard design	Not Applicable – no Tableau dashboard is used.
6	Story Design	Not Applicable – no Tableau story is used.

User Acceptance Testing (UAT) Template

Date	8 September 2026
Team ID	SWUID2026190365
Project Name	ServiceNow-Based Employee Laptop Request Application
Maximum Marks	

1. Purpose of Document

The purpose of this document is to briefly explain the test coverage and open issues of the **ServiceNow-Based Employee Laptop Request Application** project at the time of release to User Acceptance Testing (UAT).

The testing covers the laptop request form, required field validation, manager approval workflow, approval decision handling, duplicate request prevention, workflow performance, and email notifications.

2. Defect Analysis

This report shows the number of resolved or closed defects at each severity level and how they were resolved.

Resolution	Severity 1	Severity 2	Severity 3	Severity 4	Subtotal
By Design	0	0	0	0	**0**
Duplicate	0	0	0	0	**0**
External	0	0	0	0	**0**
Fixed	0	0	0	0	**0**
Not Reproduced	0	0	0	0	**0**
Skipped	0	0	0	0	**0**
Won't Fix	0	0	0	0	**0**
Totals	**0**	**0**	**0**	**0**	**0**

Defect Summary: No unresolved defects were identified during the project testing. The implemented functional requirements were successfully tested.

3. Test Case Analysis

This report shows the number of test cases that have **passed, failed, and not been tested** for the ServiceNow-Based Employee Laptop Request Application.

Section	Total Cases	Not Tested	Fail	Pass
Laptop Request Form	2	0	0	2
Manager Approval Workflow	2	0	0	2
Duplicate Request Prevention	1	0	0	1
Workflow Performance	1	0	0	1
Email Notification	1	0	0	1
Total	**7**	**0**	**0**	**7**

Test Case Details

Test Case ID	Scenario	Expected Result	Actual Result	Status
FT-01	Laptop request form validation	Valid request data is accepted.	Valid laptop request was submitted and record was created successfully.	**Pass**
FT-02	Required field validation	Submission is prevented when required fields are missing.	Submission was prevented when required information was missing.	**Pass**
FT-03	Manager approval workflow	Manager approval record is created.	Manager approval record was created successfully.	**Pass**
FT-04	Approval decision handling	Status changes to Approved or Rejected according to manager decision.	Request status changed correctly to Approved or Rejected.	**Pass**
FT-05	Duplicate request prevention	Duplicate request is blocked.	Duplicate request was blocked with the validation message.	**Pass**
PT-01	Flow execution performance	Workflow completes successfully without unnecessary delay.	Flow executed successfully from request creation through approval and status update.	**Pass**
PT-02	Notification performance	Requester notification is generated successfully.	Email notification was generated successfully after the approval/rejection outcome.	**Pass**

Final Test Result

Total Test Cases: 7
Passed: 7
Failed: 0
Not Tested: 0
Overall Test Status: PASS
